

# 10 Lovely Throws To Make While Learning To Use Chart

Learning to use charts can be an exciting and rewarding journey. As you dive into the world of data visualization, there are numerous techniques and tools to explore. One way to enhance your charting skills is by creating lovely throws or blankets that depict your data in a visually appealing manner. In this article, we will explore ten beautiful throws that you can make while mastering the art of charting.

## 1. The Bar Chart Blanket

This throw is inspired by bar charts, one of the most common types of charts used to display categorical data. Crochet or knit different colored squares to represent the bars and arrange them in a way that mimics the structure of a bar chart. This visually striking blanket is sure to catch everyone's attention!

## 2. The Line Chart Afghan

A line chart shows the trend or change in data over time. To create a line chart afghan, use different shades of yarn to crochet or knit rows that represent the data points. By arranging the rows in a sequential pattern, you can showcase a beautiful line chart that feels cozy and warm.

### **3. The Pie Chart Patchwork**

Pie charts are great for displaying proportions or percentages. Create individual circular patches using different fabrics or crochet pieces and combine them to form a stunning pie chart. This unique throw will not only keep you warm but also serve as an excellent conversation starter.

### **4. The Area Chart Quilt**

An area chart is an ideal choice to show the cumulative effect of data over time. For this throw, use different fabrics in varying shades to represent the stacked areas of the chart. By sewing these fabrics together in a quilt pattern, you can create a beautiful area chart quilt that doubles as a cozy blanket.

### **5. The Scatter Plot Tapestry**

Scatter plots are used to display relationships between two variables. By selecting different yarn colors or materials that represent the data points, you can create a captivating scatter plot tapestry. The varying textures and colors will make this throw a true work of art.

### **6. The Histogram Patchblanket**

Histograms are excellent for visualizing the distribution of data. Crochet or knit squares using different colored yarns to represent the bars of the histogram, ensuring the width of each square matches its corresponding data interval.

Combine these squares to form a cozy patchblanket that showcases the distribution in a stylish way.

## **7. The Box Plot Pillow**

Box plots are used to represent the distribution of a dataset. Create a pillow cover featuring different geometric shapes and colors that represent the different elements of a box plot. This unique pillow will not only provide comfort but also serve as a reminder of your newfound charting skills.

## **8. The Bubble Chart Afghan**

Bubble charts display data with three dimensions, using varying sizes and colors to represent different data points. To make a bubble chart afghan, crochet or knit circles of different sizes and colors, arranging them in a visually appealing manner. This throw will not only keep you warm but also serve as a fun and eye-catching decorative piece.

## **9. The Radar Chart Rug**

Radar charts are used to compare multiple variables on different axes. Create a rug that features different geometric shapes and colors, representing the various elements of a radar chart. This visually stunning rug will add a touch of elegance to any room while also reminding you of your charting expertise.

## **10. The Heatmap Blanket**

Heatmaps are used to display data values using different color intensities. Crochet or knit alternating rows of different colors, each representing a different data value or range. By combining these rows, you can create a cozy and visually striking heatmap blanket that will impress everyone who sees it.

As you embark on the journey of learning to use charts, these lovely throws and blankets will keep you motivated and inspired. Not only will they add warmth and beauty to your surroundings, but they will also remind you of the power of data visualization. So grab your yarn, needles, and charts, and start creating these stunning pieces that blend creativity and analytics!

Filet crochet isn't just for doilies anymore! These eight charted designs for afghans finish quickly, with pretty images of birds in flight, easy geometrics, a delicate butterfly, or Art Deco florals. You'll race through the rows of simple stitches, adding the lacy look of filet crochet to your home in a bold new way - with an afghan for every room! 8 Designs by Michele Mireau to crochet using medium weight yarn: Mulberry Ripple, Blue Seagull Fantasy, Blueberry Diamonds, Lilac Mosaic, Peach Opposites Attract, Pink Butterfly, Grey Simply Squares, and Yellow Springtime. Each design is worked by following a square-grid chart, where open squares represent working "ch 1, dc" and colored squares indicate "2 dc."
