Through music, we are brought together and we can gain a better understanding of people from all corners of the Earth.

We call this series “I Don’t Read Music” since we are targeting beginners of all ages: children, teens, parents, and grandparents.

This e-book includes 54 popular, rhythmic, and easy-to-play folk songs and melodies from all over the world. Since this ebook is aimed at the absolute beginner without any knowledge of reading music, we do not use the classical music staff and do not show the note duration. Each song here is written without

classic musical notation but only with circles and numbered notes inside. First of all, we recommend following the QR-code which you will find on each page, listening to the song on YouTube, and then trying to repeat what is heard in the recordings. It will help to understand the rhythm pattern and duration.

Keep in mind that folk music traditionally is not learned from sheet music or notes. Instead, it is learned by repetition and through being passed from generation to generation. We believe in this method of teaching, which is easier and more enjoyable. For learning purposes, all songs have been simplified and adapted especially for kalimba. Most songs have been transposed for one octave.

So you can use an 8-note kalimba, but if you want to play all 54 songs, you should have a 10- or 17-note kalimba.

Getting to know music from around the world can be one of the most exciting and appealing ways to be introduced to new and different cultures. Music is a universal language, meaning that it transcends borders and opens up an entirely new way of thinking.
