This marvelous collection of designs has roots stretching back hundreds of years— some of these charts appeared in early “Modelbuchs” of the 16th and 17th

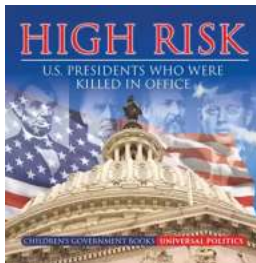

centuries. In the 1800s, publishers offered diminutive booklets with accordion-pleated pages featuring patterns and alphabets— in this instance, 2-1/2 by 3-1/2 inches— small enough to tuck into a needleworker’s bag.

The patterns in this book are part of a series published by H. K. Berlin SW in Germany between 1870–1890. Designs charted on graph paper are a universal language which can be translated into needlepoint and counted cross stitch, with each square on the pattern representing a single stitch.
