The Call of the Wild: Rediscovering the Primitive

The Call of the Wild tells the story of Buck, a domesticated dog who is thrust into the brutal world of the Alaskan wilderness during the Klondike Gold Rush. As Buck adapts to his new surroundings and taps into his primal instincts, readers are taken on a thrilling adventure filled with danger, loyalty, and the search for identity.

White Fang, on the other hand, explores the opposite perspective - that of a wild wolf dog born in the unforgiving wilderness and later forced to confront the complexities of human civilization. Through White Fang's journey, London expertly examines the fine line between savagery and civilization, making poignant observations about our own place in the natural world.

To Build a Fire: A Haunting Tale of Survival

If *The Call of the Wild* and *White Fang* showcase London's ability to transport readers to the vibrant landscapes of the North, then *To Build a Fire* demonstrates his mastery of the short story form. This gripping tale follows an unnamed protagonist on a perilous journey through the frozen Yukon. As he battles against the merciless cold and his dwindling chances of survival, readers are left in suspense, questioning the limits of human endurance.

The Call of the Wild—Selected by the Modern Library as one of the 100 best novels of all time

'To this day Jack London is the most widely read American writer in the world,' E. L. Doctorow wrote in The New York Times Book Review. Generally considered to be London's greatest achievement, The Call of the Wild brought him international acclaim when it was published in 1903. His story of the dog Buck, who learns to survive in the bleak Yukon wilderness, is viewed by many as his symbolic autobiography. 'No other popular writer of his time did any better writing than you will find in The Call of the Wild,' said H. L. Mencken. 'Here, indeed, are all the elements of sound fiction.'

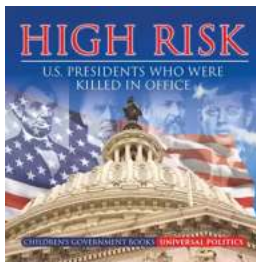

White Fang (1906), which London conceived as a 'complete antithesis and companion piece to The Call of the Wild,' is the tale of an abused wolf-dog tamed by exposure to civilization. Also included in this volume is 'To Build a Fire,' a marvelously desolate short story set in the Klondike, but containing all the elements of a classic Greek tragedy.

'The quintessential Jack London is in the on-rushing compulsive-ness of his northern stories,' noted James Dickey. 'Few men have more convincingly examined the connection between the creative powers of the individual writer and the unconscious drive to breed and to survive, found in the natural world. . . . London is in and committed to his creations to a degree very nearly unparalleled in the composition of fiction.'
