1. Sigmund Freud - The Father of Psychoanalysis

Sigmund Freud, an Austrian neurologist, is widely regarded as the father of psychoanalysis – a field that revolutionized our understanding of the human mind. Freud unravelled the mysteries of the unconscious and introduced concepts such as the id, ego, and superego that form the foundation of modern psychology. His groundbreaking work on dreams, childhood development, and the role of the unconscious provided a deep insight into our thoughts, desires, and behaviors.
