In 2010 I realized that many travelers were woefully unprepared before they were sent overseas. I include myself in this list: In 1999, I headed to France for a year to teach English; no one I knew had ever gone abroad - I literally packed the night before for nine months of travel.

I wrote The Travel Safety Handbook to help people be better travelers. The thesis is powerful yet simple: Learn the (sometimes) subtle ways to prepare for and anticipate unfortunate situations to better protect yourself, your family and your belongings as you hit the road for an adventure of a lifetime.

The Travel Safety Handbook is 150 pages of solid travel advice boiled down to the most important details to effectively guide you through the stages of researching and planning your next trip, raise your overseas IQ, lower your overall stress and be more productive anywhere in the world.
