A True Horseman

John Lyons' journey into horsemanship began at an early age. Born and raised on a ranch in New Braunfels, Texas, he developed a deep passion for horses and spent countless hours observing their behavior and interactions. He quickly realized that horses were highly intelligent, sensitive creatures that responded best to gentle, patient, and consistent training methods.

Over the years, Lyons honed his skills by studying various training techniques and incorporating his own innovative ideas. He became known for his ability to handle difficult, troubled horses and turn them into willing partners. Lyons' philosophy centered around building a solid foundation of trust and respect, ensuring that horse and rider could communicate effectively and work together harmoniously.

The Lyons On Horses Approach

Lyons On Horses is based on the principles of understanding horse psychology and behavior. Lyons firmly believes that effective training starts with a deep knowledge of how horses think, learn, and communicate. By understanding their

natural instincts and tendencies, we can build a strong rapport and establish a leadership role that our horses willingly accept.

The core principles of the Lyons On Horses method include:

- **Trust:** Building trust is crucial to develop a strong bond between horse and rider. By being consistent, reliable, and fair, we earn our horse's trust and enable them to feel safe and comfortable in any situation.
- **Communication:** Horses communicate with each other through body language, and as riders, we need to learn how to speak their language effectively. Lyons teaches riders how to use their position, aids, and cues to send clear signals to their horses.
- **Understanding:** Every horse is unique, and understanding their individual needs and personality is key to successful training. Lyons emphasizes the importance of observing and listening to our horses, allowing us to tailor our approach to suit their specific requirements.
