Paris - The City of Love

My journey began in the romantic city of Paris. The allure of iconic landmarks like the Eiffel Tower and the Louvre Museum left me mesmerized. Wandering through

the charming streets of Montmartre, I couldn't help but fall in love with the bohemian atmosphere.

Florence - The Cradle of the Renaissance

From there, I ventured to Florence, a city renowned for its artistic heritage. Strolling through the cobble streets, I marveled at the architectural magnificence of the Duomo and soaked in the beauty of the iconic Ponte Vecchio bridge.

Prague - A Fairytale Come to Life

Next on my adventure was the fairy tale city of Prague. The enchanting medieval architecture, including the Prague Castle and Charles Bridge, transported me back in time. The cobblestone streets and lively markets added to the magical atmosphere of this hidden gem.

Amsterdam - A City of Bicycles and Canals

Heading north, I arrived in the vibrant city of Amsterdam. Famous for its picturesque canals and the Anne Frank House, this was a place where I felt a sense of freedom and acceptance. Exploring the city by bicycle, I soaked up the laid-back atmosphere and enjoyed the stunning tulip fields in full bloom.

Berlin - A City United

My final stop was Berlin, a city still healing from the scars of its divided past. The remnants of the Berlin Wall stood as a reminder of the struggle and resilience of its people. The vibrant street art and the historical landmarks like Brandenburg Gate showcased a city reborn.

A Journey Worth Remembering

Looking back at these travel photos from 1990s Europe, I am filled with a sense of nostalgia and adventure. Each image captures a moment frozen in time, a memory etched in my heart forever. If you're feeling inspired to dig up your own old travel photos or plan your next adventure, I encourage you to do so. There is something magical about reliving memories and experiencing the world through the lens of a camera.

This book is the third in the "I want to show you MY TRAVEL PHOTOS" series. The first volume covered Hawaii and the second volume covered the western United States. This third book features photographs of Europe in the 1990s for those interested in Europe.

This was my first overseas trip. I first entered the UK and then traveled to Spain, Italy & Vatican City, Switzerland and France in just over two weeks. It was a tour planned by a travel agency, but it was a set of transportation and accommodation only, and I was able to freely tour after arriving at the site.

Since the 1990s, there are no digital cameras, internet, or smartphones. With the guidebook "Walking the Earth" in one hand, I set up a strategy at the hotel, "Where should I go tomorrow?", And went around the next day. Around 1990, there were many undeveloped areas even in tourist areas.

I scanned a film photo into my computer with a scanner. The image quality may not be beautiful. Also, the date is included in the photo. Please pardon.

We hope you enjoy it while feeling the historical and cultural cityscape of Europe.
