Welcome to Classic Stitch

A cross stitch pattern of Wedding Day Sampler.

This sampler has been stitched on 28 Count Zweigart canvass, however, it can be stitched on any count of canvass. To help to make this sampler more personal, for the couple who you are stitching it for, there is included in the Key a choice of six different colours. So, all you have to do is to use the colour you want in the chart for the colour you have chosen. You could also if you wanted to, do each flower in a different colour, making the sampler even more colourful. At the back of this book you will find two alphabets with a grid. This is so that you can work out the lettering of, as in the example included. The couple's names, the date of the wedding and where they are getting married. This is to make sure that they will fit before you begin to stitch.

Included is a full chart in colour together with a key and full instructions on how to complete each stitch. The charts can be made bigger on your Kindle to help to see the symbols more clearly, with full instructions on how to work the stitches a beginner and a more experienced stitcher will be able to complete the finished sampler. All that is needed is time and patience.

It is our aim at Classic Stitch, to make it so that by having all of our patterns in digital format. Depending on whatever device you use choose to view them on, be it a mobile phone, tablet or laptop, all of your patterns can be with you at all times. So that whenever the urge to do some stitching comes over you, there will be a pattern to hand.

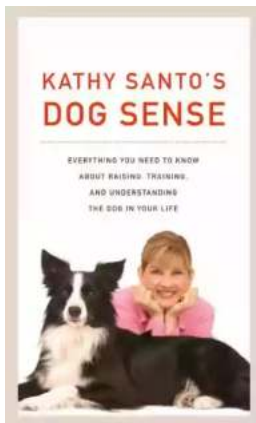

I have been doing cross stitch pictures since 1992, around 1994 I was encouraged to have a go at doing my own designs by my parents. My company Classic Stitch was founded in 1995, since when I have been creating my own unique range of cross stitch designs. I have been self-taught at designing and try to make each one of my designs as a work of art in their own right. I have since

gone on to become a Fellow of the Royal Society of Arts (FRSA). At the time of writing so far as I know, I am the only fellow to create art using stitches.

If you enjoy stitching this sampler, please visit the Classic Stitch web site to view the full range of patterns. There you will find a link to take you to Amazon, where you can buy any of my ever-increasing range of books. On the web site you will be able to download a copy of a free pattern.
